## Coleman Airport One of The Best

Will Prove Important Link in Trans-Canada Air Mail and Transport Service. Considered One of the Best Laid Out Fields in Canada.

A FEW years ago Coleman and ten acres of E. Fleming's Board of Trade assisted by farm was purchased. Plans call for a 4,000 feet runway, considered sufficient for heavy planes for Forestry patrol planes from High River. It was on land owned by Wylie Godfrey a short distance west of town.

It attracted the attention of the for the past three years under aviation officials of the Dominion government, with the result that investigation was made as to its suitability for further development. It was found too small for large planes, though safe for landing and take-off of smaller machines, and it was used fairly frequently by Consolidated Co.'s machines and others on their way through the Pass.

Later A. D. McLean, now Dominion superintendent of Aviation and Airports, made a new survey, which resulted in taking over a half section of school land.

"Share the wealth" advocates usually have none to share.

### LOCAL NEWS

Taking larger space than usual to advertise Christmas goods, the advertisement of Coleman Cash Grocery will be found on page 4, instead of its usual position on the back page.

Postmaster Graham urges the mailing of letters and parcels to Great Britain and Europe as early as possible. Try and avoid the pre-Christmas rush and long waits to be served by sending your mail early. Better to be a few days early than one day late. Co-operate with the office staff, it will be appreciated.

### Christmas Goods

Coleman merchants are laying in a stock of Christmas goods which will this year equal the peak year of 1928. During the past week heavy consignments of goods have been laid down in Coleman for the Christmas trade. Merchants are satisfied that the holiday business will surpass that of last year and have made plans accordingly.

Watch next week's Journal for the commencement of holiday shopping by local merchants.

### Charges Against Koska Withdrawn

The R.C.M.P. have withdrawn the prosecution of Charles Koska, on the charge of negligence and causing bodily harm to P. Borbosky, injured in an auto smash near Sentinel on Nov. 8, when Leona Cudmore was killed. First charged under the Vehicles and Traffic Act, the charge was later amended to a charge under the Criminal Code. Owing to insufficient evidence to proceed under the latter charge, the case has been withdrawn on all counts.

### Boxers Will Mix Things on Mon.

Contenders at 168 lbs. Will Battle for Middleweight Title

Frank Barringham again appears on the horizon with a fight card that should be the best ever staged in Coleman. Young "Tunny" Lust is a big drawing card in whatever town he appears on a fight card. His opponent, Matvenke, has been seen in the Pass on two occasions against Gentleman Jack Jones. Lust has enjoyed success from Winnipeg to Vancouver. At the latter city he fought on several occasions, gaining decisive victories and drawing favorable press comment. Lust holds a decision over Blochinger of Edmonton and former Alberta amateur middleweight champion. Matvenke put up two good scraps against Jones that had the fans of their feet throughout the bout and since he is employed at a gym in Calgary is in the peak of physical condition and is expected to give Lust plenty of opposition.

### Musical Festival Banquet

Monday, Dec. 2, Greenhill Grill, Blairmore, 7:30 p. m.

Tickets may be obtained in Coleman from H. T. Halliwell at The Journal office, and any persons interested in the festival will be welcomed to the banquet, which will be followed by the annual meeting and election of officers for 1936 festival. The tickets are 75c each. As arrangements must be made in advance for catering, will those desiring to attend notify The Journal office, Telephone 209, by Friday evening at 5:30 p. m., or Mrs. J. H. Farmer, secretary, Telephone 168.

### Dr. and Mrs. Borden Leaving for England

Doctor Will Take Post-Graduate Work for Year in Empire's Capital City

Dr. Borden, since 1926 physician and surgeon for the mining companies and employees, intends leaving here on Dec. 12, and Mrs. Borden and children will accompany him.

The first stop will be at Kingston, where they will be joined by their son Robert, who is attending the Royal Military College, and they will then go on to Wolfville, Nova Scotia, to spend the Christmas season at Dr. Borden's old home in that historic province.

They plan on sailing Jan. 4 from Halifax on one of the "Duchess" steamers of the Canadian Pacific, and will make their home in London, where for about a year Dr. Borden will engage in post-graduate work.

In his absence, Dr. McLean will engage an assistant to carry on the work here, leave of absence having been granted by the employees for Dr. Borden to go to England.

Ten young ladies have organized a basketball club and will practise in the Community hall.

Albert F. Short, secretary of McGillivray Co., was a business visitor to Calgary and other points during the week.

A good daily newspaper and your own Coleman Journal are a necessity if you wish to keep informed on world-wide and local events.

### Hockey Season Opening Game Next Week

First League Game in Coleman on Friday, December 6—Monarchs Coming

The Crow's Nest Pass Hockey league slate was released last week and gives Bellevue and Blairmore the honor of opening the season on December 4th at Blairmore. The strong Medicine Hat Monarchs are the guests of the local aggregation at the arena on December 6th, playing Lethbridge on their way home to the Hat on the Saturday.

Five teams will comprise the league and each will play the other four games, two home and two away. The three leading teams will play off at the end of the league schedule for the league championship, the leading team getting a bye into the final.

Coleman will again enter the senior playoffs and the fans are pulling for them to win provincial honors. Exhibitions with teams not in the Crow league will

### Alex. Cornett Died Last Night From Injuries

Was Kicked By Mine Horse Which He Was Preparing to Shoe at International Mine

SORROW and sympathy were expressed throughout town when it was announced from the hospital on Wednesday at 9.15 p.m. that Alexander Salisbury Cornett, blacksmith at International mine machine shop, had passed on from injuries received on Tuesday morning.

A mine horse had been standing in the shop waiting to be shod. One report states that Mr. Cornett, as he approached the horse from the rear, it being tied to the wall at the forge, coughed almost at the same instant he placed his hand on it to work around towards its head. The animal had not shown any vicious tendencies and had been handled at various times by him. It is considered probable that it was startled and kicked with its hind feet, catching Mr. Cornett in the stomach and knocking him down. Immediately workmen rushed to his assistance, and it was quickly seen he had sustained serious injuries. He (Continued on Page Eight)

be played at intervals during the season.

### Push Sale Of Canadian Wheat

Western Canadian farmer organizations are on the right track in taking steps to launch a well defined and co-ordinated program of publicity with the promotion of greater consumption of high grade wheat in consumer countries as its objective.

Within a period of a couple of weeks two of the large farmer marketing organizations have given their blessing to such a move. These are the central organization of the Canadian wheat pools, whose plan to place an all-Canadian wheat loaf before the British consumer was endorsed at the annual meeting of the Saskatchewan Wheat Pool delegates and the United Grain Growers Ltd., who, at their annual meeting in Winnipeg sponsored a publicity program for Canadian wheat overseas.

Briefly, the U.G.G. Ltd. propose to interest boards of trade and other organizations throughout the prairie provinces to sponsor a request to the Federal government to set up a special sales promotion body to be known as the Canadian Wheat Institute with offices in consumer countries, the objective being to develop greater consumption of high quality wheat, which, of course, means wheat grown in Canadian fields.

The necessity for stimulating overseas consumers' interest is cited in the following quotation from the directors' report at the annual meeting of the Saskatchewan Wheat Pool: "In spite of the fact that Great Britain remains the best Canadian overseas customer for Canadian wheat, our wheat is invariably used only for blending with other wheats, particularly in the English mills. The British people generally are not familiar with the high quality of bread which can be baked from Canadian flour."

In support of the argument that a publicity campaign should be conducted in Great Britain, figures were quoted at the U.G.G. convention to the effect that while world consumption of wheat has dropped 31 per cent in the past five years, Canadian wheat exports have been increased by 49 per cent in the same period.

While this may be true, it does not necessarily mean, however, that Canada is not holding her own in competition with other wheat exporting countries as total exports have dropped faster than total consumption due to the self-sustaining efforts of a number of the former customer countries in Europe. It does demonstrate, on the other hand, a material reduction of consumption of wheat, during the period under review.

Unfortunately, there is evidence that there is actually a reduction of consumption of wheat in Great Britain, Canada's best customer for high grade wheat. Representatives of the Scottish Co-operative Wholesale Society, while in Western Canada this summer, testified that while the Scotchman insists upon bread made of wheat of high protein content, as a result of which bread sold by the Co-operative's affiliates and subsidiaries contains 93 per cent Canadian wheat, he is also eating less bread than formerly and, incidentally, though it may sound, is consuming less porridge. The Caledonian is substituting more expensive fruit, bacon and eggs and other commodities, for a percentage of his erstwhile substantial diet of bread and oatmeal.

There are indications that a similar situation exists in England, where the popular taste is for a lower grade loaf than the Scotchman demands, for within the past year the British millers have found it advisable to institute a five-year advertising program at considerable expense in an effort to persuade the population south of the Tweed and the Cheviots that they should eat more bread.

With many of the former markets virtually closed to Canadian wheat and the British market showing a tendency to shrink, due to changing dietetic tastes, or whatever the cause may be, the outlook is not reassuring to the Western Canadian farmer.

The farmer organizations are becoming alive to the need for taking some steps to deal with these conditions and it is to be hoped that some effective program can be devised with all interests working together to a common aim.

In some quarters it is suggested that this is an opportunity for the Canadian Wheat Board to take the initiative in co-operation with the Department of Trade and Commerce. It is pointed out that the Wheat Board, under the Canada Wheat Board Act, is vested with wide enough powers in section 8, sub-section B, which gives the board authority "to sell and dispose of, from time to time, all wheat which the board may acquire for such price as it may consider reasonable with the object of promoting the sale and use of Canadian wheat in the world markets."

Some recent experiments in the home market show that the public will respond to a loaf made more attractive by favoring or other devices and it is possible that similar efforts to woo the British consumer would pay dividends. At any rate it is worth a trial.

#### Soil Survey

During the past summer the Manitoba Soil Survey under the direction of Professor J. H. Ellis of Manitoba University has made a reconnaissance soil survey of approximately 1,774,000 acres in the drought area of southwestern Manitoba.

#### Canada's Chief Loss

In the event of Italy retaliating by refusing to buy from Canada the chief loss would be in wheat, according to the exports for the last fiscal year when wheat to the value of \$1,096,624 was shipped to that country.

The invisible larvae of the clothes moth, and not the moths themselves, do the damage to clothing.

#### Terminates Annual Gifts

Rockefeller Believes Sectionalism In Church Is Wrong

Forsaking the traditional practice of his father, John D. Rockefeller, Jr., has terminated his annual monetary gifts to the Northern Baptist Church in the belief that inter-communicationism is the best servitor of Christian religion.

In a searching letter to the Northern Baptist convention, written March 7 last, but revealed only recently, the son of the founder of one of the world's greatest fortunes informed the church that henceforth any future gifts would be only to specific agencies of the church.

"I have long felt," he wrote, "that this denominational emphasis is a divisive force in the progress of organized Christian work and an obstacle to the development of the spirit and life of Christ among men."

To hold young people, Rockefeller said, who are largely unconcerned with denominational distinctions, the church must work with them "in relegating the non-essentials to a place of secondary importance and stand with them for the fundamentals of Christian duty."

Rockefeller, the largest individual donor to the church, has in the past made annual donations ranging from \$250,000 to \$1,000,000 to the general budget of the Northern Baptist convention.

#### Made Noise Like 'Plane

Swarming Wasps Routed Pack Trains In B.C. This Year

Wasps were numerous throughout British Columbia this year. Hundreds of nests honeycombed the rocky ground of the Cariboo district and on Vancouver Island.

"You could stand still anywhere in the woods, listen quietly, and hear a humming like a flock of distant aeroplanes," a logger in the Comox district of Vancouver Island reported.

He told of finding an area where a bear had demolished a dozen nests in the space of a quarter of a mile, fastening on the young wasps it found.

Many nests were situated on the Forbidden Plateau and pack trains were often attacked by the stingers. Horses rear and plunge as the swarms sail in to the attack. The stings remain with the horses only a few minutes, however, and they are soon quieted.

#### Unique Picture Gallery

Has Been Hobby Of Hotelkeeper For 35 Years

Trail, a little mining town in British Columbia, boasts a unique picture gallery. It is owned by Pete Levesque, a hotelkeeper, who has made it his hobby for 35 years, and it covers every inch of wall space in his lobby.

The gallery includes a photograph of every prominent man or woman who has visited Trail since 1900, and many of the photographs are autographed. All carry a short biography of the subject in Mr. Levesque's spidery writing, each ending with the word "died," followed by a blank space to be filled in when the time comes. Some of the subjects have thought this meticulous attention to detail a trifle premature.

#### Making It Clear

Mose knocked the ashes from his corncob pipe and put it on the mantelpiece. "Mandy," he said, "I think I've given you on mah best clo's as go down to the theatre tonight to see de chorus ladies dance."

Mandy turned a stony eye on him. "Mose," she grumbled, "listen here. If at all you want you thinks, den you'd better think again. Niggah, you ain't gwine to 'put on nothin' to no place, no time, to see nobody do nothin'; never, now, and not at all. Does yo' understand?"

The golfer had lost his ball, and, not unnaturally, was inclined to be annoyed with his caddy.

"Why didn't you watch where it went?" he asked.

"Well, sir," said the boy, "it don't usually go anywhere, and so it took me unprepared like."

In addition to ancient eggs and birds' nest soup, the Chinese are particularly fond of dogs' flesh. marmalade made from roses, preserved oysters, ducks' gizzards, and canned earthworms.

Fish can be kept fresh for three months by means of a new process of brine freezing perfected in England.

In case you are interested, the salary of a member of parliament is \$3,600.

MADE IN CANADA

#### English Language Changes

Words Drop Out And Come Into Use Again

A sign of the way in which the English language changes is seen in the use of the word "tremble," when describing earthquakes. In the last few days it has frequently appeared in news dispatches, but we were unable to find it in the Shorter Oxford English dictionary or in the Century though we thought it would surely be in the last.

We could find "tremble," that is, one who trembles, and "tremor," that is, an agitation of the limbs, or of the earth, but no "tremblor." The Century dictionary quoted J. Milne's use of the word "tremor" as follows: "Modern research has shown a typical earthquake to consist of a series of small tremors succeeded by a shock or series of shocks."

The word was not in the body of the text of Webster's New International dictionary, either, but it was included in the footnotes, and this is what we read: "tremblor—erroneous for tremor." And what is "tremblor"? It is Spanish for earthquake, says Webster. From an old dictionary, the Standard, published in the nineties, we got a little more information. It contained "tremblors"—the word there has an extra "e"—which were defined as "tremors of the earth's surface in volcanic districts." The word is Spanish, from "temblar"—without the "e"—meaning tremble. It was derived from South America.

Apparently it was in common usage in America, in its erroneous form, at the end of the last century, then dropped out of current speech, and has now made its reappearance, just like a dandelion in a lawn—Hamilton Spectator.

#### Java Has No Poor

Native Diet Is Frugal And Everyone Has Enough

Speaking of the world tour of Lord Baden-Powell and herself which recently concluded with their visit to Canada, Lady Baden-Powell mentioned their stay in Java, and added: "I might say there isn't a poor person in all of Java. Of course the native diet is frugal—a handful of rice and a couple of bananas is sufficient each day. But we could learn a lot from the attitude of these Eastern people. Their kindness, their friendly spirit and their goodness shine from their eyes."

#### More Statistics

"When one gets a piece of dust in his eye he should remember that his earth weighs 5,885,516,000,000,000,000,000,000 tons," says The St. Thomas Times-Journal, and the London Advertiser remarks it might also help to recall that there are roughly 2,000,000,000 people in the world ready and willing to pluck moles out of other folk's eyes.

The moon sometimes comes 30,000 miles closer to the earth than at other times. It does not travel in a perfect circle around the earth.

Arithmomania is a strange malady. The sufferer is obsessed with uncontrollable desire to count things.

Tung oil has been important in China over 5,000 years.

#### Poultry Congress In Leipzig

Exhibit Building In Berlin Was Destroyed By Fire

Owing to a serious conflagration in the city of Berlin, Germany, the large building in which the live bird exhibit of the Sixth World's Poultry Congress was to have been held in 1936 was destroyed by fire. As there was no other hall in Berlin large enough for the purpose, the Congress authorities decided to hold the Congress in Leipzig. According to official information, this arrangement will give better accommodation than was possible in Berlin, while at the same time the delegates will have every opportunity of seeing the sights in and around Berlin itself on the occasion of a pre-arranged visit. Provision is also being made for the delegates to visit the Olympic Games, which will be held on the outskirts of Berlin. A Canadian tour is being arranged, and already there have been some definite bookings and a large number of applications for information.

#### Propane Gas Has Many Uses

Can Cool A Refrigerator Or Run A Motor

One of the products of oil and gas wells is a condensable gas, propane. Under compression it is a liquid, but if released to atmospheric pressure it becomes a gas. When it changes from a liquid to a gas it has properties similar to dry ice, solid carbon dioxide. It has frequently been suggested that propane could be used for a dual purpose with completely opposite effects. It could first be evaporated from the liquid state through coils of pipe to cool a refrigerator and the vapor could then be sent to a gas stove, where it could be burned as fuel. A parallel application applied to motor trucks transporting perishable foods is described in "Food Industries." The propane is first used for refrigerating the body of the truck and is then used as fuel for the motor instead of gasoline.

#### Told Astonishing Story

Fishermen On Caspian Sea Marooned For Five Days

Thousands of Caspian fishermen told an astonishing story of having been marooned on the bottom of the sea for five days, dispatches to Moscow stated. Their report was that at the busiest period of the fishing season the sea itself retired from under the boat.

It receded along 150 miles of the northern shore line of the Caspian Sea, leaving the ships high and dry several kilometres from solid earth. Airplanes dropped food to the marooned men until the tide flowed back and allowed them to refloat their ships.

#### Increase In Dairy Herds

A survey of farms on the Lethbridge Northern Irrigation area shows an increase in dairy herds and a steady level in prices for cream. There are altogether 3,500 cows of which about 2,400 are Holsteins in the district, but with 100,000 acres available these numbers are capable of considerable increase.

#### Took Name From Islands

The Canary Islands were called "Canaria" by Phnyx, because of the multitude of dogs of great size found there. The domesticated canary took its name from the island, and not the islands from the bird.

The large, white, funnel-shaped "blooms" of the calla lily are not the true flowers at all, but outer leaves. The real flowers are tiny, inconspicuous things, crowded together on the club-like spadix in the centre.

It has been estimated that twice as many boys as girls figure as victims of road accidents, while eight times as many boys as girls are drowned.

The poisonous toadstool and the edible mushroom are of the same family.

Don't "Chisel" Yourself

Don't "chisel" yourself, when for so little you can get the best. You have always enjoyed Ogden's and now that times are better, you get back to Ogden's and pleasure.

And don't forget to roll it with the best papers "Chanticleer" or "Vogue".

**OGDEN'S FINE CUT**

Your Pipe Knows Ogden's Cut Plug

#### Unique Design For Windows

South Africa's New Post Office Using Replicas Of Stamps

South Africa's new post office which is now under construction is to have stained glass windows in the form of enlarged replicas of the Union's halfpenny, penny, twopenny and fourpenny postage stamps. Intertwoven with the stamp designs are representations of a streamlined train, aeroplane, a motor ship, and a radio station emitting sparks. A pair of symbolic poles help to balance the design which are supported by medallions, sketches of mail coaches and other old methods of postal transport.—L. A. Barnes.

#### To Learn English

In the last two years nearly 4,000 foreign girls have gone to England to become domestic servants, most of them being well educated and of good family, but adopted this means of improving their knowledge of English.

Asia, with its 16,700,000 square miles, is the most populated continent. It has more than 954,000,000 inhabitants, or over half the population of the world.

About 80 per cent. of our drinking water is treated with liquid chlorine to destroy the harmful bacteria.

The hardest job a clerk ever takes is trying to sell a woman something that can't be exchanged.

Don't forget that you are a part of all of the people who can be fooled some of the time.

# A Threat Of War If Oil Embargo Against Italy Is Enforced

Paris.—Usually reliable sources said that Great Britain and France had decided to recommend to the League of Nations sanctions committee of 18 that it postpone consideration of the oil, iron and coal embargo against Italy. The committee was scheduled to discuss the proposal this week.

Premier Laval and Sir George Russell Clerk, the British ambassador, were understood to have reached this decision.

Premier Mussolini was reported in Paris' newspapers to have declared imposition of an oil embargo would be construed as an act of hostility and would lead to war. France does not export any oil.

Italy is attempting to intimidate the powers in trying to prevent a world oil embargo and has warned France that such an embargo would mean war, according to Mme. Genevieve Tabouis, authoritative French political commentator, in L'Ouvre.

L'Ouvre also said Premier Mussolini had sent a secret envoy to Paris, Marquis Alberto Theodoli, to ascertain whether the French navy would act if Italy sank a British ship enforcing sanctions in the Mediterranean.

Grave concern was being expressed here over the prospect of an oil embargo which would deprive Italy of its most important war material.

## May Balance Budget

Special Financial Advisor Of Alberta Tackles Problem

Edmonton.—Balancing of Alberta's budget by March 31, end of the fiscal year, was envisioned by R. J. Major, special financial advisor to the government, in his first preliminary report to Premier Aberhart.

The cash loss on this year's operations, Mr. Major reported, will be \$9,546,310.17, the margin of expenditures over revenues.

Anticipating the obtaining of concessions from Ottawa, the decrease of expenditure and the increase of revenues, however, the financial expert said, he had brought the loss to within \$900,000 of balancing. The problem now is to wipe out this deficiency.

Refunding of Alberta's debt, close to \$200,000,000, and resultant saving of an estimated \$3,000,000 a year in interest is among the factors expected to contribute to a balanced budget. This refunding, as well as other projects to decrease the province's expenditures, is one of the chief items to be put before the Dominion government at the Ottawa conference next month.

## Royal Air Force

Plans Made For Additional Aircraft Construction

London.—A project for additional aircraft construction to bring the strength of the Royal Air Force to a total of about 2,200 aeroplanes by May, 1937, was disclosed by authoritative sources.

A spokesman said orders for about 250 more planes than previously announced were already placed in factories working overtime to turn out military craft.

When the present program has been completed, authorities said, the home defence planes will total 1,500, and the fleet, aviation and overseas units about 700.

The previous total had been set for about 1,950.

## New Zealand Trade Pact

Will Encourage Shipment Of Cars From Canada

Ottawa.—With extensive revision of duties on Canadian motor vehicles, including parts, the Canada-New Zealand trade pact expiring next Nov. 24 has been renewed to July 31, 1936. Hon. W. D. Euler, minister of trade and commerce, announced.

The new rates will only become effective next May 1, while further trade negotiations will be carried on between the two countries.

The changes in the New Zealand tariff were made at the request of that country in order to encourage the importation into New Zealand of unassembled cars that the assembling might be done there.

Canadian exports to New Zealand have been increasing steadily from \$2,608,500 in the year 1932 to 1933, to \$3,447,785 in the year 1934 to 1935. In the last eight months alone, exports to New Zealand reached a total of \$4,326,593—an increase of \$800,000 from the corresponding six months of the previous year. The chief item of export was automobiles and parts exceeding \$1,000,000.

Imports from New Zealand have also been increasing steadily. In the year 1932 to 1933, the amount was \$669,704. This increased in the year 1934 to 1935 to \$2,534,678.

## Investigate Earthquake

Will Issue Report On Disturbance When Information Is Gained

Ottawa.—The Dominion observatory here has asked all seismograph stations in the world to lend it their records of the Nov. 1 earthquake that rocked eastern North America. It was disclosed in a statement by the department of the interior.

The department said the observatory must await these records before it can issue a final report on the seismic disturbance that caused considerable alarm over a wide area, although it did little actual damage.

Meanwhile the observatory is awaiting replies to questionnaires from 100 postmaster at selected points between the Atlantic seaboard and Winnipeg who were asked to describe the shocks as felt in their areas.

The department said the observatory would issue a report at the end of a field investigation being undertaken by Dr. Ernest A. Hodgson, Dominion seismologist, in the vicinity of North Bay, Ont., and Temiskaming, Que. It added: "The field work to date seems to indicate that the epicentral point is not far from Temiskaming."

## Shepherd From Prairies

Sheep-Dog Skill Is Shown At Royal Winter Fair

Toronto.—A shepherd from the prairies brought down the house at the opening of the Royal Winter Fair.

The crowded Coliseum at the Canadian National Exhibition ground cheered to the echo the display of sheep-dog skill and intelligence given by William H. Martin of Maple Creek, Sask.

The three dogs rounded up sheep and geese, guided by low commands and a faint "hiss" from the shepherd.

## Alberta's Finances

New Government Is Working On The Problem

Edmonton.—Addressing the 27th annual convention of Alberta Association of Municipal Districts here, Hon. Charles Cockcroft, minister of municipal affairs, stated that the actual deficit of the province for the fiscal year ending March 31, 1936, "will be something over \$9,000,000."

"By March 31, 1936, we will have an apparent deficit of \$4,500,000 but that does not include direct or agricultural relief charges" the minister explained in stating problems facing the government.

After stating the estimated deficit for the fiscal year the speaker declared: "I am giving this information so you can see something has got to be done."

The government had obtained the services of R. J. Major to study a means of decreasing expenditures and increasing revenues without harmful effects, he continued.

"I am pleased to say that after discussing this matter with Mr. Major we have come to the conclusion that something might be done to correct the ills in the province at the present time," the minister stated.

"It must be obvious to all we would have to increase taxes in order to balance the budget."

The first question was that of refunding debts and in this connection "our information is most encouraging," he said. "We expect to return to the province with encouraging news—encouraging not only to the government but to the cities concerned."

Regarding refunding the minister said: "The element of sanctity of contracts comes in but I am convinced in my own mind that a bond can have no greater value than the market value allows." Loans were being offered as low as one per cent. to-day, he said.

## British Naval Hero

Death Comes To Lord Jellicoe In His 76th Year

London.—Lord Jellicoe, outstanding British naval figure in the Great War, died Nov. 20. Death came to the admiral in his 76th year. He was born Dec. 5, 1859. Lord Jellicoe rose to his greatest fame as commander of the grand fleet at the battle of Jutland in 1916.

The immediate cause of Lord Jellicoe's death was illness contracted Nov. 11 during the Armistice Day ceremony at the cenotaph. All the members of his family, including his wife, were at his bedside when he died in his home in the Kensington district of London.

## Joins Royal Air Force

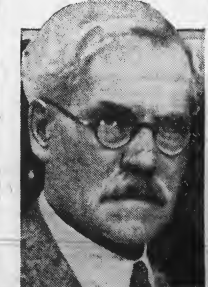

Only Boy Accepted From Saskatchewan Is 16 Years Old

Unity, Sask.—John Aedy, a 16-year-old boy who has the distinction of being the only boy in Saskatchewan to be accepted as a cadet in the Royal Air Force is en route for England, where he will attend the R.A.F. school for three years. He is a son of Capt. Aedy, M.C., of Revenue district, and was educated at a country school. The examination set by the air ministry is considered to be exceptionally difficult for a boy of his years.

## Award For Calgarian

Calgary.—One of the highest honors in the realm of music and the only one of its kind to have been accorded a Canadian has been awarded Cloyd Jones, of Calgary, by the Royal Academy of Music, London, England. He has been awarded the degree of Fellow of the Royal Academy of Music.

## MAKE UNUSUAL MOVES ON POLITICAL CHESSBOARD

Fate was kind to one former British Labor Cabinet Minister when it allowed him to regain his seat in the House of Commons, but it dealt a totally opposite blow to his former cabinet colleague. Left is former Premier Ramsay MacDonald, who went down to defeat in the General Election, while, right, is the Right Hon. A. V. Alexander, former fellow cabinet minister of Ramsay MacDonald who regained the seat he lost in 1931.

## A. BEVERLEY BAXTER

Canadian and former editor of the London Daily Express, who wins seat in British elections.

## Victim Of Circumstances

Says Mussolini Must Go Ahead If His People Are To Live

"Mussolini is a victim of circumstances and must go ahead if his people are to live," J. H. Woods, editor of the Calgary Herald, just returned to Calgary from Geneva, where he was a member of the Canadian delegation to the League of Nations, said here.

Italy was overworked, was using antiquated agricultural methods and had few raw materials, Mr. Woods stated, adding that was the real reason for her aggression in Ethiopia. Mussolini was in desperation because he could not provide for the population for which he had taken sole responsibility.

Great Britain was the only power that seemed to see the situation clearly as a whole, he continued, and saw three possible conclusions to the Italian-Ethiopian hostilities—a short and successful war; a protracted and difficult war resulting in the destruction of Italy's commerce; and a complete defeat for Italy.

Mr. Woods saw grave possibilities should the latter occur. "Conflicting and lurid ambitions would arise," he said. "If the Ethiopians conquer Italy, Kenya is lost to Britain. Color and race would become a vital and dangerous one."

It Duce was not a person to be deterred but a man to be greatly pitied, the speaker asserted.

## Captures Wheat Prize

Royal Winter Fair Award Goes To Alberta Farmer

Toronto.—Howard P. Wright of Aldridge, Alta., won the first major championship in the grain and seed classes of the Royal Winter Fair here. His sample of hard red spring wheat was adjudged the best in the show.

An Ontario grower, Roy C. Chambers of Fenwick, showed the best wheat other than hard red, and may be Wright's chief opponent when the judges decide the grand wheat champions of the fair. Other placings in the wheat classes were not announced with the division champions. H. G. Neufeld of Coedite, Sask., captured the oats championship. The championship for peas travelled to British Columbia, winner being B. Young of Koksilah, B.C.

First place in the fax division was captured by William Suchwood of Cardross, Sask., with Nelson Langry of Homewood, Man., second. John Hamilton of Coaldale, Alta., captured first place with his exhibit of field beans, other than small white, in the grain and seed judging. The Alberta department of agriculture at Brooks, Alta., won second prize in the small white beans competition.

# Cabinet Changes Made In Shuffle By Premier Baldwin

London.—One newcomer was brought into the cabinet, one present member dropped and several posts shifted in a reshuffle by Prime Minister Baldwin.

Alfred Duff-Cooper, financial secretary to the treasury, was promoted to the post of secretary for war, succeeding Viscount Halifax. The latter, in turn, took the place of the Marquess of Londonderry as lord privy seal and leader of the government in the House of Lords. Lord Londonderry is retiring from the cabinet.

J. H. Thomas, dominions secretary, and Malcolm MacDonald, colonial secretary, exchanged places. Ramsay MacDonald remains as lord president of the council, and other cabinet ministers retain their present seats.

In political circles it was predicted that another shuffle might take place shortly, in view of the few changes made.

The switch between Thomas and younger MacDonald surprised political observers. The dominions office has always been regarded as the senior post, but from the time of the verbal rift between Thomas and the former Canadian prime minister, Rt. Hon. R. B. Bennett, there has been a body of Conservative opinion which claimed the former was not too popular with the dominions and should hold another office.

The verbal rift between the two men occurred during the imperial conference of 1930 in London, and arose over negotiations for the sale

of Canadian wheat in the United Kingdom.

It was pointed out that the 34-year-old Malcolm MacDonald was popular when he visited Australia last year and acquired valuable knowledge of the spot. He also performed valuable work at the imperial economic conference in Ottawa in 1932 and acquainted himself closely with Canadian affairs.

The younger MacDonald was under-secretary for the dominions before the reshuffle. He has been defeated in his division of Bassetlaw at the general election, and a new seat will have to be found for him as soon as possible.

Unless Ramsay MacDonald is raised to the peerage—and there has been no indication that this is likely hitherto—a seat will have to be found for him.

The most interesting suggestion heard in usually informed quarters regarding the exchange of offices between Thomas and Malcolm MacDonald is that Prime Minister Baldwin is determined to endeavor to settle existing differences with the Irish Free State.

Thomas was invariably uncompromising in this matter from the standpoint of the Free State. He has been regarded as the "bogey man" of the Anglo-Irish situation, and his departure from the dominions office may make matters easier.

W. S. Morrison was appointed to succeed Duff-Cooper as financial secretary to the treasury.

## New Era For Farmers

Speaker Visualizes Better Days For Agriculturists

Toronto.—Canada is beginning five or ten years of the greatest progress its agriculture industry has ever seen, declared Hon. Duncan Marshall, Ontario minister of agriculture, speaking to representative farmers and stock raisers from every province, together with prominent guests from the United States and overseas, at the annual dinner of the Royal Agricultural Winter Fair.

"One-third of the wealth of Canada is in the hands of the agricultural interests of the country," said Mr. Marshall. "The men and women behind this great industry have had their hard times, they have been through the lean years of depression. But a new day is dawning for the farmer. Canada is coming into its own as one of the greatest agricultural nations of the world."

His godparents were the king and queen, the Prince of Wales, Prince Nicholas of Greece—his maternal grandfather—and the Duke of Connaught who was represented at the ceremony by Prince Arthur of Connaught.

## New Zealand Treaty

Negotiations With Canada To Further Trade Matters

Ottawa.—Further trade negotiations will be conducted between Canada and New Zealand shortly after New Year, Hon. W. D. Euler, minister of trade and commerce, stated here.

"Canada is accepting New Zealand's invitation to resume trade discussions before the proposed automobile tariff changes are to be put into effect by New Zealand, and negotiations will take place soon after New Year," the minister said.

The Canada-New Zealand pact, extended from Nov. 24 to July 1, 1936, provides for extensive changes in New Zealand's duties on Canadian motor vehicles and parts. Provision is made in the extended agreement that these tariff alterations will not become operative until May 1.

## Duke's Son Christened

King And Queen Godparents For Prince Edward Of Kent

London.—The first-born son of the Duke and Duchess of Kent was christened Prince Edward George Nicholas Paul Patrick in the private chapel of Buckingham Palace, in the presence of his grandparents, the king and queen.

The ceremony was performed by the Archbishop of Canterbury, using River of Jordan water dipped from the same golden font from which the infant's grandfather, King Edward VII, was christened.

Seventh in line of succession to the throne, the king's young grandson will be known generally as "Prince Edward of Kent."

His godparents were the king and queen, the Prince of Wales, Prince Nicholas of Greece—his maternal grandfather—and the Duke of Connaught who was represented at the ceremony by Prince Arthur of Connaught.

## Western Wool

Fine Quality Is Stressed At Meeting In Toronto

Toronto.—The marked increase in western Canada's production of fine wool, handled through the Canadian Co-operative Wool Growers, was stressed by W. H. J. Tisdale, Toronto, assistant manager of the organization, in a report to the joint wool committee, meeting here.

In the past 15 years, the report stated, production of wool in the fine grade class had increased from two to 40 per cent. This increase, it was emphasized, had been due mainly to the action of farmers in the more careful breeding of stock, carrying out the recommendations of the committee, and the importation of suitable breeding stock from the United States and other countries.

# Trans-Atlantic Air Mail Route Will Be Selected Soon

Ottawa.—Conferences designed to determine the best route for a trans-Atlantic airmail and freight service between Canada and Ireland will start here between an inter-departmental committee of Canadian experts and 11 aviation and postal officials from the United Kingdom, Northern Ireland and Newfoundland.

Sir Donald Banks, director-general of the British post office and head of the visiting delegation, disclosed the British government hoped eventually to establish an airmail service to carry letters for three cents apiece. Delegates will have three choices of routes. They may decide to send

aeroplanes across the roof of the world—over sub-Arctic and Arctic Canada, Greenland, Iceland, the Faroe islands Northern Ireland. The route has been surveyed in part.

They may choose a southerly route from Ireland to Bermuda and from there to Nova Scotia or New Brunswick. Sir Donald said choice of the Bermuda route would necessitate New York landings as the Great Circle distances between the islands and New York and the maritimes are practically the same.

The third choice might be a direct jump from Ireland to Newfoundland and Canada.

# Unethical Showing Of Cattle At Fairs And Exhibitions

Toronto.—The provincial winter fair at Guelph, Ont., one of the biggest show events in Canada, was held up by George B. Rothwell, Dominion livestock commissioner, as one of the few fairs which did not ignore livestock regulations.

Mr. Rothwell appealed to the 12th annual convention of the Canadian Association of Exhibitors to "clear up a situation that in some cases assumes the dimensions of a racket." He was joined in his attack against unethical showing of cattle at fairs and exhibitions by Hon. F. C. Biggs, Ottawa, of the national livestock records.

"I could tell you the names of fairs and exhibitions in Canada that

ignore regulations in regard to registration of livestock and closing dates," Mr. Rothwell said. "The only name I am going to mention is that of a fair which has an estimate record with the national livestock records at Ottawa, and that is the Guelph fair."

Mr. Biggs said thousands of animals have been led into the show rings during the last few years which had no right to be entered in the show. "They were in and, in some cases, should have been barred from the show. The guilty parties, he said, were not only farmers. "Some of the biggest breeders in Canada have gone wrong when they reached the fair," he said.

## NOTES AND COMMENTS

**FATALITIES** from auto accidents increase. In nearly every case, "25 to 30 miles an hour" is the reply to the question, "At what speed were you driving?" There is much comment over so many verdicts of accidental death being returned. As long as a driver is the victim of his own recklessness, and smashes up his own car, very little can be added. But it is when others through no fault of their own are maimed or killed that penalties are deserved. Investigation reveals that 90 per cent. of accidents are through carelessness, disregard of the rules of the road and dare-devilry by inexperienced drivers. Many lose their heads in an emergency, and possibly their lives.

**SURPRISING** at times how a little story or news item will make the rounds of a large number of newspapers. The Dominion Press Clipping Bureau, Toronto, checks all daily and weekly newspapers for items re-published from each other, and at certain periods forwards the clippings with the names of the papers in which they appeared. The Journal received a batch this week, and papers in eight provinces copied news items or stories which had appeared in this paper at various intervals.

Even the Montreal Gazette carried a little story we wrote from recollections of running a newspaper, the same story having been re-printed in the Calgary Herald, the Lethbridge Herald and a number of weeklies.

Three weekly papers in Nova Scotia, including Wolfville, Digby and Bridgewater, quoted The Journal, while the most northerly in Canada was The Northern Mail, published at The Pas. A place with a familiar name to Ontario people of Bobcaygeon printed a story, and in Saskatchewan the Wakaw Recorder, Wadens News and a few others copied an item about the Polish people in Coleman, and their contribution to community affairs.

Looking over this large number of clippings, the thought came to mind of the little grain of mustard seed and how it spread o'er the land. That's one thing about a newspaper, you never know if an item from it will appear in British Columbia or Cape Breton.

**VERY SOON** Premier Aberhart will journey to Ottawa to discuss provincial finances. It is likely the man who will do most of the talking for the Dominion government will be the Hon. Charles Dunning, a former Saskatchewan premier and a very nice man, even if he is a Liberal. The Honorable Charles is very affable, so much so in fact that as he sits in conference, he likes to soften the harsh atmosphere of business by smoking a pipe and inviting those who interview him to make themselves at home.

**DESPITE** his suave and genial style, he has a real head for business, or he wouldn't have reached the position he holds in government circles and in private business. Behind that genial exterior, and puffs of smoke from his pipe, he will likely be thinking a lot of things when Alberta's request is trotted out by the impressive delegation of Social Creditors who are going down to try and explain the new gospel of finance and credit flowing from fountain pens. Doubtless Mr. Dunning will wonder why they are there at all, for the sum asked is only small compared with the largesse which Mr. Aberhart pledged himself to pay to Alberta people and on which promise he was elected. And if Mr. Aberhart can pay dividends without asking Ottawa for aid, why not go a step farther and create an additional eighteen or twenty millions and tell the Dominion to go to blazes, that we are running this province, and we'll show them how. Dare to be a Daniel!

A Journal subscriber submits the following, from a Scottish newspaper which he regularly receives; It is headed "The Questioners," and was published prior to the recent general elections in Great Britain. It proceeds:

"One of the minor annoyances to which candidates of all parties will be subjected during the election campaign will be the questionings of members of the Social Credit Movement. The job of these enthusiasts is to ask questions, not to answer them, and they have been provided by their central organization with a list of queries intended to embarrass political speakers. Their plans for giving money to everybody are based on the mysterious A plus B theorem, which has puzzled mathematicians, economists, and most of the Social Credit workers who go round with their list of prepared questions. Their proposals have been simplified in the scheme drafted for the benefit of Scotland, which offers £300 a year to everybody for doing nothing. It is not necessary to enquire farther into their schemes, except as a curiosity, for when they in turn are faced with a question, 'Where will the money come from?' they have no answer to convince anybody but themselves.

The Railway Carmen's Journal says "O! Man Depreesion will hang around just so long as consumers buy foreign-made and unfair goods."—From a U.S. newspaper.

## Here and There

Our vanishing wildernesses have for some time elicited the concern of conservationists, but now science is bespeaking our solicitude in behalf of some of the glaciers which bid fair to disappear within a few decades, if scorching summers succeeded by mild winters become the rule. Dr. Francois E. Matthes, of the United States Geological Survey, fears that within another 20 years Glacier National Park, Montana, may be minus its glaciers. Mount Rainier National Park, Washington, also has suffered from heat prostration. At no time within the memory of living persons has the recession of the ice rivers in these areas been so rapid as during the long-protracted heat wave of 1934. During normal winters snowfall and rigidity are wont to replace to a large degree the melting snows of summer.

Third annual competition for the most beautiful autumn-tinted Maple Leaf is announced by the Canadian Government through the Canadian Travel Bureau at Ottawa in co-operation with the Canadian Pacific and Canadian National Railways. The prize list for the 1935 competition provides for a total of \$200, of which \$100 goes to the person sending in the most beautiful leaf; a second prize of \$40 and a third prize of \$20. In addition a prize of \$30 for the leaf with largest area, and for second largest \$10 will be awarded.

"Steel of Empire," the recently published work by John Murray Gibson, while really the story of the Canadian Pacific Railway, has so much of other Canadian history that it will find a permanent place as one of the outstanding contributions to the records of the Dominion. Starting with the first known arrival on our shores, a Chinaman, Hui Sien, in British Columbia at the end of the fifth century, Mr. Gibson traces the romantic growth of the Canadian Pacific, many centuries later, with a wealth of incident and detail, the author's long association with the railway having been of the utmost value.

Possessing one of the finest collections in the world of colored pictures of scenes in the heart of the Rocky Mountains, T. H. Lonsdale, of Banff, recently exhibited them to the Women's Canadian Club at an illustrated lecture at the Vancouver Hotel. The pictures included scenes of mountains, valleys, lakes and bird, animal and flower life.

Evangeline Booth, 69-year-old commander-in-chief of the Salvation Army, told the "story of the Army" to the Men and Women's Canadian Club at the Royal York Hotel, Toronto, recently. "I was born in the Salvation Army," she said, "but it has never become a common thing to me. It has always been a miracle." A capacity audience gave her an ovation.

Keen outdoor man, enthusiastic member and past president of the Trail Riders of the Canadian Rockies and a leading stalwart in the ranks of the Trail Riders, J. M. Wardle, chief engineer, National Parks of Canada, has won well-deserved promotion to the post of deputy minister of the Department of the Interior, Ottawa.

Premier Dymally, of New Brunswick, was the chief speaker recently when the City of Saint John played host at a dinner in the Admiral Beatty Hotel to New Brunswick's guides at their twenty-third annual convention. Heavy full guiding affected audience, but a good membership under the chairmanship of Wilfrid T. Griffin, of Beauséjour, president of the Association, enjoyed a successful gathering.

### THEY'LL BREAK DOWN CRYING

J. Edgar Hoover, expert crook catcher, advises that you and I cease using bullets to stop burglars and get tear gas guns. He says:

"A tear gas gun is just as effective and it's much safer for the average motorist or private citizen. A dose of tear gas will incapacitate the criminal."

A tear gas gun may eventually incapacitate a criminal but in the few split seconds before he starts breaking down crying what will he be doing? Brother Hoover doesn't say, but we fancy Mr. Criminal won't be picking daisies unless it is with a forty-five, off our coat lapels.

## Local News

Rumor hath it that a well known gentleman of Coleman and a Blairmore lady are to be married in the near future.

Constable Smith, R. C. M. P., it is reported has been transferred to Edmonton, and promoted to the rank of corporal.

G. K. Strrett of Britannia Paint Works, has been doing a number of interior painting and decorating jobs in town.

Over a hundred young people were skating at Crows Nest lake on Sunday. It was an ideal sunny day, and many enjoyed trips by auto to nearby towns and prairie points.

Coleman Rangers held a successful whist drive and dance on Saturday evening. Prize winners at cards were Mrs. Geo. Pattinson, Mrs. Kilgannon, Mr. J. Nash and Mrs. Harold Turner.

The Journal has a friendly rival in the weekly newspaper business. Ronnie Jones writes his with a pen and ink, and circulates it among his friends. Horses in the park and a dog with a broken leg are feature stories. The latter states: "While crossing the road it was run over." Which raises the question: Just why did it choose that particular time to cross the road? It surely invited disaster.

An amusing incident too good to keep quiet is told of a farmer in the district who with his wife was entertaining some visitors over the week end. One of the visiting ladies asked him to buy a ticket on a raffle for the church to which she belonged. "You belong to that church?" queried the farmer. "Why, yes!" replied the lady. "Well, well!" he replied, "that church did me out of \$5,000." The lady told her pastor about it, and the pastor advised her to go back and get him to take a whole book of the raffle tickets, so that he would have a chance to get some of that \$5,000 back.

## Town Purchases Snow Plow

Coleman streets will be kept free from snow-drifts, which will be good news. A plow has been purchased, which will be attached to a powerful truck which was added to the town equipment. Property owners are reminded that a town by law requires them to keep the sidewalk fronting their premises free of snow, and it is hoped this will be observed, and penalties avoided for non compliance.

Punch: Italian soldiers in East Africa who are unable to go home on leave are allowed to be married by proxy. One or two, no doubt, would have preferred the option of going to East Africa by proxy.

## The Churches

### ST. PAUL'S UNITED CHURCH

On Sunday Dec. 1, Rev. Ralph Smith of Penn., U. S. A., who has been conducting a short evangelistic campaign in the United church will return after a three days mission in Blairmore and will preach in the morning and evening.

He is a forceful preacher and has a vital message, and is working under the auspices of the "Back to the Bible Club" in Calgary.

The official board will meet at 2.30 p. m. Sunday.

### ST. ALBAN'S CHURCH, COLEMAN

Dec. 1, Advent Sunday, the services will be: 11.15 a. m. Holy Communion and address. 12.30 p. m. Sunday school. Bible class every Wednesday at 7.15. Everyone welcome.

### THE SALVATION ARMY

The regular services will be held at the Salvation Army. A Live Wire Young People's meeting Friday. Sunday school at 3 p. m. Red Hot Gospel Service at 7.30 Sunday evening. "The World for God." Everyone is welcome at the Army. Don't forget the sale of work, Tuesday Dec. 3 from 2.30 till 6 p. m.

### Straight Talk From Church Vestry

A VESTRY meeting of St. Alban's church decided to issue a special appeal to all who claim to be Church of England members in Coleman. Many are giving nothing and the church is receiving less support under improved conditions than when employment was much less than it is to-day. The vestry reviewed the situation and decided that drastic steps would have to be taken if the services are to continue, as those now supporting the church feel it is unfair they should be allowed to carry the financial burden which should be shared by all church members.

### Give and Take

The Ponticon Herald, editorially commenting on the fruit duties, states:

"We cannot get concessions from the Americans without giving some. The fruit industry, in the sense of a lower tariff wall, has given some concession. But it has not given to the extent that it will be severely hurt."

And if general reciprocity measures bring prosperity, the fruit growers of British Columbia may be better off than they would be with very high duties in their favor, a paucity of Canadian trade with the United States and a measure of prairie consumer resistance to Canadian fruits."

The most unhappy of all men is he who believes himself to be so.—Hume

## Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this:

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

**Demand and Get "ASPIRIN"**

CHAPTER XXIV.—Continued

The girl spoke softly; her dimple showing for a moment; but to her surprise Jack answered in all seriousness: "After what you did during the blitzard? You know better, sis. But Matt's different from some boys, and I wouldn't like to think you'd hurt him."

Said Nancy, endeavoring to make her voice sound light: "You talk like Aunt Judy! She imagines that every boy who looks my way has lost his heart!"

"Well," observed Jack, "most any one would think that Matt had; but I never saw him act so happy and keyed up as he did this evening—and last night too. Say, will you ever forget how excited Mr. Adam was over your finding that crucifix? I think they're the finest family I ever knew. So enthusiastic, all of 'em. Do you suppose Daddy Mother'll let me come back next winter? With Mark in California studying forestry they'll be short of help here at the ranch; and gee! I'd like it more'n anything!"

"I'll say a good word for you," promised his sister; and then: "Get back to bed, Jack. We must be up in good season, and it's long past midnight."

Despite her wakefulness, Nancy was up early next morning, though not so early as Matthew Adam, but had, according to Aurora, delivered milk at the Tubbs about before she was out of bed.

"He spoke through the window," she related, "and almost frightened Victor into a collapse. He said I was to tell Jack to be ready to ride down on the truck along with the trunks, and Mark and Luke and John (young John, I mean) and Mary Taylor and Juanita. I told him he would look like a straw ride, but he said, 'Who

carest? I'll have to admit that for a fellow who's sweet on a girl that's going two thousand miles away where he'll likely never lay eyes on her again, Matthew Adam looked pretty well resigned. And in fact, just days ago he resembled a man just coming from the cemetery after burying his last relation. He's to drive the Ford with his father and mother and Miss Columbine and you, Nancy. I declare, if I wasn't quite so fleshy I'd squeeze in between on the front seat and go too."

"Why not go down on the truck?" suggested Miss Columbine, emerging from her bedroom.

"Among all them trunks and young folks and milk cans," retorted the good woman, "No thank you, Miss Columbine. I have my pride, and there's house cleaning to do even if you are going home with Eve Adam for over Sunday. I must say it was real considerate of Eve to ask you, this house'll seem about as cheerful as the tomb till we get used to it. Well," he sighed mournfully, "the last breakfast is ready, and you'd better eat if you've any appetites, which I haven't myself. A cup of coffee and four doughnuts was all I could get down this mornin'. I've took the liberty of inviting Victor Tubbs to dinner, Miss Columbine. I need food, and goodness knows I couldn't eat a bite if I was to be here alone."

The truck was gone at last, leaving Aurora flattered and rosy at Jack's farewell kiss.

"It's just as well," she said, waving her apron as a last salute, "that Victor wasn't here to see. He's still jealous. Nancy, after more than 20 years of married life, and though Jack didn't mean nothin' in the world by kissin' me good-bye, Victor Tubbs might have misunderstood."

"Which proves that there's no fool like an old fool," declared Miss Columbine tartly. "Here comes the Ford, Aurora. I'd rather have Mark Adam drive us down the pass, but no doubt Matthew will be careful with his load of old folks. Where are you going, Nancy? I thought everything had been brought down to the view from my tower," the girl responded, laughing; but once in the familiar room she tip-toed to a carefully closed closet and drew forth something she had hidden.

"Will you send Matt up to get my suitcase, Aurora?" she called, her charming innocence from the head of the steep stairs. "Those stupid boys have overlooked it."

The last ride down the historic pass was over. The station came into view, and an impatient "clatter" as Jack called it, on the platform. All too soon a gigantic engine roared past the waiting crowd, and slowly stopped; while, dazed and breathless, Nancy found herself mounting steps into the Pullman, a dusky porter armed with a "porter" standing her on, and Jack behind, stopping to call something to somebody.

"Section eight, this way, lady." From her window Nancy looked out upon a sort of composite picture of that friendly gathering. Then, as the wheels turned, she caught the glimpse her eyes had glimpsed: Cousin Columbine in her scarlet middie, with Matt close by, bareheaded as she had seen him first—his hand slipped through the old lady's arm protectively.

Dear Matt! She'd forgotten to tell him to look out for Cousin Columbine, but he knew something was afoot in Nancy's throat. The landscape blurred. Then Jack was saying:

"Thank heaven that's over! I never felt so—so conspicuous in my life. Did you kiss every member of the Adam family? I don't but I did! I sure I kissed Juanita Tubbs—by mistake, of course. And I believe I must have kissed Cousin Columbine three times! Isn't she the dandiest old sport, Nancy? Kept a stiff upper lip right to the last minute, but I miss my guess if she didn't want to have. Made me feel bad just to look at her. But some one will understand and cheer her up, sis. Of course somebody will!"

Jack was right. As the wheels moved faster and Miss Columbine's steady lip began to tremble, a big young hand drew her away, back from the crowd that still stared, stupidly, it seemed, at the departing train.

"Listen," said Matthew. "Listen, Miss Columbine. It's not quite so awful as it seems, having her go. I promised not to tell even Mother till—till Nancy got home and could talk her; but she left a note for you in—incase you seemed too lonely; and anyway, I really exploded if I don't tell some one, so—so you see."

"This was the old, shy Matthew, hesitating as if there were no words with which to say this thing; but as she glanced up, puzzled, Columbine Nelson surprised a light upon his face that started her.

"What are you trying to tell me,

## 4 to 5 TIMES More Quickly Digested than Cod Liver Oil

Tired, jaded appetites need the stimulation of Cod Liver Oil. Scott's Emulsion helps give you a healthy, normal appetite PLUS added digestibility and vitality because it is an emulsified Cod Liver Oil in a solution of bone-building Hypophosphites of Lime and Soda. PLUS VALUES you get only in Scott's Emulsion.

## SCOTT'S EMULSION

THE DIGESTIBLE COD LIVER OIL WITH THE PLUS VALUES FOR SALE BY YOUR DRUGGIST

Matthew Adam," she demanded brusquely. "Stop stumbling over your words like that. I'm not a stranger. Don't keep me on tenterhooks a minute longer or I'll do the exploding. What are you trying to say?"

And at the reappearance of her own brisk self, Matt laughed, while in the face and eyes of an astonished baggage-man, he caught the oddly-attired lady in a bear-like hug.

"Only that Nancy is coming back," he told her joyously. "And—another time Miss Columbine, she'll come—to stay!"

The End.

## A NEW SERIAL STORY

Arrangements have been completed for presenting to our readers a new serial entitled "Fleming's Folly," by that well-known writer, Lawrence A. Keating. This is an absorbing and exciting story of the western plains, and those who follow the instalments as they appear each week, will be thrilled by the intensive situations. This story will be commenced in an early issue. Be sure that you do not miss the opening chapters.

## IN NEXT ISSUE

### New Death Ray

Designed to Use Against Insect Pests, Could Kill Human Beings

A "death ray" designed for use against insect pests but conceivably capable of being applied to kill human beings was described at Baltimore to 150 scientists. At the meeting of the eastern branch of the American Association of Economic Entomologists, Dr. Thomas J. Headlee, professor of entomology at Rutgers University, explained that "sterilization" of insects by "radio waves" requires no more than a "couple of seconds." Animals, he said, develop heat more rapidly than do plants, so it is possible to kill the insects by heat before the plants develop sufficient heat to harm itself.

His apparatus consists of an electrostatic field confined by two electrodes; by rapid oscillation of an 8,000-volt energy between the electrodes, he has killed insects. The electrodes charge from positive to negative at a rate of 50,000,000 times a minute, Dr. Headlee said.

### Substitutes For Food

People In Hungary Are Buying Foxes And Crows

At the market at Keesemet (Hungary) crows are on sale, where they are fetching as much as three cents each. They are bought by the poor who make them into a form of "chicken broth." Foxes are also being sold by the farmers at a shilling a head. Never since the war have the inhabitants of this wealthy district been forced by hard times to resort to such substitutes for food.

The cemeteries of London total in area six times the size of Hyde Park, which covers 390 acres.

## DOCTORING YOUR DAIRY HERD

Cows aren't machines. They can get sick or hurt. But Minard's Liniment makes it easy to care for their ills. Mr. Thos. Bulmer of Lardo, B.C., found one of her herd with a lump in her udder. "I rubbed it with Minard's Liniment," he says, "and it soon got better." Minard's is best for Cuts, Bruises, Colic, Distemper, etc., and equally good for stables in horses. Well named "King of Pains."

## Egypt Will Be Guarded

Britain Will Defend Country Against Any Foreign Attack

Having confidence in the League of Nations to enforce the rights of small nations, Egypt demanded independence from Britain and the removal of British troops from the Nile valley. This she has had for the last 16 years.

However, Egypt did not realize at the time, that her territory will always be coveted, as a key position for any country aiming at naval supremacy in the Mediterranean, Africa, the Suez canal is partly responsible for this. But Napoleon considered Egypt the corner stone of his enterprise, when he dreamed of Eastern conquests, and that was 60 years before the canal was built.

Now an Italian force numbering over 30,000 is on the Libyan border, and a vast army is near the Sudan frontier. Egypt would have good reason to worry were it not for the clause in the treaty of 1922, by which Great Britain made herself guardian of Egypt against foreign aggression.

Facts speak plainer than facts and the Egyptians realize that the day is passed when a small nation can exist without the fear of aggression from great powers.

Signor Mussolini is quite candid in telling the world, they want Abyssinia for their surplus population and trade in raw materials. The most violently Anglophobe Egyptian cannot accuse Britain in exploiting his country along these lines, as there has never been any British colonization of Egypt and British firms complete on equal footing with concessions.

The present state of affairs has brought the Egyptians and British together, as they see their interests are mutual.

## Swedish Economy Program

Request \$2,500,000 For Expansion Of Electrified Railroad System

The Swedish State Railways Administration Board has requested 15,000,000 kronor (about \$3,750,000) from the government for the next fiscal year, of which some 10,000,000 kronor (about \$2,500,000) will be used to expand its electrified railroad system. Construction will cover mainly additions to trunk lines and electrification of minor roads and spurs. All main lines on which such traffic is economically feasible already have been changed from steam.

At the beginning of 1935 electrified government lines totaled 1,331 miles. The expansion program calls for further electrification of 679 miles, of which 220 miles will be completed by the end of 1936. The main reasons for this program have been economy in cost of operation, present cheapness of money and material, relief of unemployment and a greater independence from imported coal.

Electrification of Sweden's principal railroad line, 385 miles from Stockholm to Malmo, in the south, was completed October 1, 1935. Work on the 285-mile line from Stockholm to Gothenburg, on the west coast, was started in 1923 and completed in 1926 at a cost of 44,600,000 kronor.

Part of the line that runs north from Stockholm toward Lapland has been electrified. The new power will be installed only as far as Ånge, where the north and south line strikes an east and west line that crosses the Scandinavian peninsula from Sundsvall, in Sweden, to Trondheim, in Norway. The line will come into completion of the west coast line from Malmo to Gothenburg, and this work may later be extended as far as Oslo, the capital of Norway.

## Pedigree Registrations

For the first ten months of 1935, the total number of pedigree registrations with the Canadian National Live Stock Records, Ottawa, approved by the Dominion Minister of Agriculture, was 59,178, compared with 58,457 in the corresponding period of 1934. Included in the 1935 registrations are 2,904 horses, 28,285 cattle, 6,847 sheep, 5,724 swine, and 1,213 poultry.

## High Grade Barley

About 500,000 bushels of high grade barley have been placed in storage at Calgary by a malting company. Another million bushels is now being collected. Much of the present storage stock has been secured from growers who utilize special seed put out by the company in the spring.

Of the total of 314,158 farms in Western Canada, 222,981 or 71 per cent, keep 1,310,038 head of milch cows.

Squirrels use their tails for parachutes in long jumps.

### Phenomenal Doll Sales

Publicity Was Large Factor In The Success Of These Toys

Dolls have been the outstanding best sellers in the toy sections of departmental stores in the United States this year, according to national survey reports of toy world. Shirley Temple dolls, Dionne quintuplets and fairy princess dolls, the latter prompted by Colleen Moore's fairy doll house now touring the country, have won first place in over-the-counter sales.

Needless to say, the newspaper, movie and magazine publicity has been a big factor in the success of these toys. As a result of this year's phenomenal doll sales, the stores also report a fine demand for doll clothes and accessories.

Velocipedes and bicycles held a firm place during the summer months and are expected to maintain a strong position with Santa Claus this Christmas.

The four best selling games of the past month, according to the survey, were "Monopoly," "Finance," "Bandied Parchees" and "Badminton," all made by different manufacturers.

### Old Chief Enters Movies

Aged Indian Dresses In Ceremonial Costume And Dances Sun Dance Chief David, 100-year-old Sanic Indian of Vancouver Island, danced his way into the movies recently. When cameramen making a picture from Stukichin toward Lapland had been electrified. The new power will be installed only as far as Ånge, where the north and south line strikes an east and west line that crosses the Scandinavian peninsula from Sundsvall, in Sweden, to Trondheim, in Norway. The line will come into completion of the west coast line from Malmo to Gothenburg, and this work may later be extended as far as Oslo, the capital of Norway.

He went through the difficult movements of the dance without faltering. Then he told about his boyhood—how he had watched his tribesmen attack old Fort Victoria back in 1843.

### Japan Looking For Tourists

Plans To Spend Large Sum On Advertising Campaign

Japan plans to attract more foreign tourists to the country. The Bureau of Tourist Industry in Tokyo intends to spend nearly \$300,000 on an extensive advertising campaign in the next fiscal year. Offices will be established in Chicago, Paris and Shanghai. Publicity films will be circulated and advertisements placed in newspapers and magazines throughout the world.

### Reduction For Families

Family tickets for air travel in Europe are now being issued by aviation companies. Tickets are valid for either four months or a year. A family consisting of a man, his wife and two children under 21 may obtain marked reductions in fares.

One Chinese army compels its soldiers to be thrifty. Ten per cent of the rate pay must be saved monthly, and none is exempt.

The Australian government will send a trade delegation to India.

### Little Helps For This Week

For I reckon the sufferings of this present time are not worthy to be compared with the glory that shall be revealed in us. Romans 8:18.

Believest thou in eternal things? Thou knowest in thy inmost heart Thou art not clay, thy soul hath wings.

And what thou seest is but part.

Every contradiction of our will, every little ailment, every petty disappointment, will if we take it patiently become a blessing. So, walking on earth we may be in heaven; the ill-humors of others, the slights of the world, the daily accidents with which God hath mercifully strewn our path, instead of ruffling or disturbing our peace may cause His peace to be shed abroad in our hearts abundantly.

### International Language

Weather Men Adopt Program Unifying Means Of Exchanging Reports

An international language for the weather, made up of signs and figures instead of words, so as to avoid the confusion of varied national languages, is to become uniform for the world's weather man. W. R. Gregg, chief of the United States Weather Bureau, asserted recently.

Returning from Warsaw, he reported that the International Meteorological Organization at its eighth meeting there, with representatives of 42 countries present, adopted a program for unification of codes, symbols and units in the exchange of weather reports.

The maps on which daily weather forecasts are based will look alike the world over. A black dot will mean light rain or drizzle, a star will mean light snow, and a plain circle will mean clear, cloudless skies on every weather map, whether the observers supplying data for it speak English, French, Russian, Chinese, Arabic or any other language.

### Accepts New Office

Lady Tweedsmuir, wife of the Governor-General, has accepted the office of Grand Patroness of the Canadian National Poppy Campaign. In so doing Her Excellency follows the precedents of the Countess of Beasborough and Lady Willingdon.

Lighthouses are built round to present less surface resistance to waves and wind.

## Instant Relief From ITCHING

Are you tormented with the itching troubles of eruptions, eczema, scabies, rashes or other skin afflictions? For quick and happy relief use pure, concentrated, liquid D.D.D. Prescription. Its gentle oils soothe the irritated and inflamed skin, thus easing nature itself to heal the disorder. No fumes—no mess. Clear, greaseless and stainless—dries up almost immediately. Stops the most insistent itching. Comes in a 3-oz. trial bottle, at drug stores, with some 13-oz. money back. D.D.D. Prescription is made by the doctors of ITALIAN BATH.

## Alex. Cornett

(Continued from Page One)  
was admitted to the hospital at noon. The horse seemed to know by instinct it had caused injury, for eye-witnesses state it was trembling violently following the fall of Mr. Cornett and the consternation it caused.

From the first it was realized that he was dangerously injured and was in no condition to undergo an operation. He remained conscious almost to the end, and death was the result of a ruptured liver and hemorrhages.

Coroner F. J. Turner will conduct an inquest.  
Mr. Cornett's birthplace was Gananogue, Ont., and when he first came west he was active as a hockey player. Just recently he was appointed president of Coleman Tigers, junior team, and had always taken an active interest in local players. He was 52 years old, and besides his wife is survived by his son Melville and daughter Helen, both married.

He entered International employ in 1922, and a few years ago was for a time at Red Deer, then at Coal Creek. In 1933 he returned to International employ.

His brothers living are Frank, in U. S. A.; Albert, of Shelby, Mont.; Roy, druggist of Red Deer, Mrs. Ballard, sister, of Calgary, and a sister in Banff.

The funeral service will be held on Sunday, at 1.30 p. m., at St. Alban's church.

Verdict this afternoon—Accidental death; no blame attached to anyone.

## THE CANADIAN INSTITUTE OF MINING AND METALLURGY

The Rocky Mountain Branch  
Crow's Nest Section

November 20th, 1935.

The season 1935-36 was auspiciously opened by a dinner in honor of several distinguished guests of the mining fraternity, as follows:

Dr. J. McLeish, Director of Mines, Ottawa; A. Messervy, Department of Mines, Nova Scotia; Col. G. C. Cole, Dept. of Mines, Manitoba; W. R. Wilson, past president of the C.I.M.M., Vancouver; E. J. Carlyle, general secretary, C.I.M.M., Montreal; H. W. Poole, Consolidated Mining & Smelting Co., Kimberley; Mr. Giegerich, Consolidated Mining & Smelting Co., Kimberley; A. P. Sawder, president, Professional Engineers of Alberta, Lethbridge; J. Shanks, general manager, Brazeau Collieries, Ltd., Nordegg; F. Irvine, president, Alberta Branch, Canadian Manufacturers' Assn., Calgary.

Thirty-one guests and members sat down to dinner, at the conclusion of which, following a toast to "The King", Mr. Kellock called several of the visitors to address the members.

Dr. McLeish gave a resume of the activities of the Mines Branch for Canada.

Mr. Messervy spoke on the mining industry of Nova Scotia, particularly with respect to the extraction of coal from the Nova Scotia fields under the Atlantic ocean; growth of production of gypsum, salt and gold and the manufacture of finished steel from raw products which, with the exception of manganese ore, were all produced within a radius of 25 miles from Sydney, Nova Scotia.

Colonel G. C. Cole took as his subject "Mining in the Province of Manitoba", where there had been a marked increase in both tonnage and value during the past year.

Mr. Sawder expressed his pleasure at being present and touched briefly on the activities of the Professional Engineers' Association.

Mr. W. R. Wilson, past president of the Canadian Institute of Mining and Metallurgy, spoke at length on the changes which had taken place in the mining industry of the Crow's Nest Pass during his long residence in the district in his capacity as general manager and president of the Crow's Nest Pass Coal Company.

Mr. Carlyle outlined the many activities of the Canadian Institute of Mining and Metallurgy, also its value to the mining fraternity, even to the finding of positions among student-members and others.

In connection with the forthcoming annual meeting in March, 1936, Mr. Carlyle said a strong effort was to be made to have the papers and discussions largely confined to coal and coal mining, also that for the future it was made to assist coal mining.

## Junior League Proposed

Plans are afoot between the various junior hockey committees of the Pass towns to form a junior hockey league comprising teams from Bellevue, Hillcrest, Blairmore and Coleman with Pincher Creek a possible entry.

Sidney White, manager of the Blairmore club in conjunction with the Coleman committee, will call a meeting in Blairmore in the near future to discuss league affairs and draw up a schedule.

Tickets on the radio being raffled by the local junior club on Christmas night are meeting with popular demand, added interest being given by the display of the radio and interesting hockey photographs in Sentinel Motors window.
